

208 Minerva Rd Wedderburn

Self-Catered Kitchen Usage Authority:

We are surrounded by food every day, so it's easy to forget food can also be potentially very dangerous if not handled and prepared correctly. Bacteria can multiply in food, and cause extreme illness. Food handlers should have knowledge and skills appropriate to the type of food they are preparing, especially if the food normally needs to be kept hot or cold and is not eaten straight away.

Your assistance is requested to help us ensure that food you serve from our premises is both safe & healthy.
